RE: DEIS Comments, Cayuga Indian Nation of New York Trust Acquisition Project

Dear Mr. Keel:

This letter contains my comments on the Draft Environmental Impact Statement with respect to the Cayuga Indian Nation's Land into Trust Application. I support the proposal by the Cayuga Nation. Allowing the Cayuga Nation to place privately bought land into trust is literally the least the government can do to redress the injustice committed against the Cayuga Nation.

The Cayugas have repeatedly demonstrated their willingness to negotiate in good faith, and I believe that any problems with the proposal will be solved in cooperation with the Cayuga Nation.

Thank you for the opportunity to submit my comments and concerns into the public record.

Sincerely,

Andrew J. Ferguson
