

Attention: DESI Comments, Cayuga Indian
Nation of New York Trust Acquisition Project,

I Michele Barr opposes Land – into Trust application of Cayuga Indian Nation. I feel that, taking the subject land into trust would render it sovereign territory and therefore exempt from property taxes, special districts charges and other fees, thus reducing the revenue of relevant counties, towns, villages, and school, fire, water, and sewer districts.

The DEIS acknowledges that the property in question is on the “ancestral land” and therefore not on a current reservation, thus the CIN application is being treated improperly as an “on-reservation” rather than an “off-reservation” application.

I ask that you would take these comments under great consideration for Seneca and Cayuga Counties. Thank you for your consideration.

Sincerely, Michele Barr
